

HITACHI

# airHome 500

Cooling Only  
Wall Mounted Systems

RAK-DJ50PCAT (5kW)

WARRANTY

Cooling & Heating

# The system for people who don't want to think about air conditioning.

## Peace of Mind with a 6 Year Warranty

The airHome wall mounted range comes with a comprehensive **6 year warranty** on parts and labour, so you can be assured of the reliability and quality of your airHome system.

WARRANTY

## Award-winning Design ideal for all types of interiors

airHome was designed according to Hitachi's Duality Design philosophy, combining superior engineering and subtle aesthetics to create Living Harmony within your home.

reddot winner 2022

—  
**No need to think about it**

**airHome provides effortless comfort.**

Work, play, relax, sleep. No matter your lifestyle, airHome automatically adapts to your routine.

Purifies your indoor air

Cleans & maintains itself

No need to think about it

# Effortless comfort

## Automatically follows your routine

airHome air conditioners adapt to each moment of your home life. With intelligent sensing features, airHome always provides the right air for you.

# SleepSense: your sleep companion

### Before you sleep

Activate SleepSense in one touch on your remote controller.

### When you wake up in the morning

SleepSense detects when you're up, and it switches back to pre-sleep operation for a fresh start to the day.

### During the night

SleepSense monitors your sleep. Once you fall asleep, SleepSense gradually reduces the air conditioning operation (change of temperature<sup>1</sup> + quieter operation) to create the ideal conditions for deep sleep.

More features providing adaptive comfort

### Perfect airflow

Suitable for large rooms  
Distributes air effectively across any room in your house, reaching up to 24metres away<sup>2</sup> and automatically distributing air across a 105° by 60° 3-dimensional arc

### Powerful Mode

Activate the 20-minute powerful mode  
For when you need rapid cooling

### Dry Operation

For humid days  
Dry operation dehumidifies the room efficiently and silently

### Silent Mode

So quiet, you'll forget it's on!  
Thanks to the unique wave - blade fan, the air conditioning will run quieter.

### Climate Control

Ensures year-round comfort control  
Cooling operation up to +46°C outside.

1 .... +2°C in cooling mode.  
2 .... Airflow distance will vary according to fan speed setting, environmental factors and model capacity.  
Claim refers to models RAK-DJ50PCAT model on high fan speed creating an air velocity of 0.15m/s or more according to anemometer tests.

# Smart Eco cuts air conditioning when the room is vacant

With Smart Eco, indoor units will automatically adopt energy-saving mode when you're out of the room. You don't need to remember to turn your AC off; Smart Eco does it for you.

### When you leave the room

**Initial Operation**  
Smart Eco detects the room is now vacant, the cooling operation continues as you've set it for the next 20min.

### After 20min of vacancy

**Energy-Saving Operation**  
airHome automatically modifies the set temperature higher to reduce the power consumption.  
When you return later to the room, human (or pet) presence is detected again and the AC returns to initial operation.

### Optional: after 60min of vacancy

**Auto-Off Option**  
Smart Eco automatically turns off the air conditioner to stop consuming energy.

CHOICE Recommended  
The airHome 500 5kW model (RAK-DJ50PCAT) is endorsed as a CHOICE Recommended product.

# Effortless comfort with hassle-free controls

## Control your AC from anywhere

All **airHome** air conditioners can connect to our next-generation airCloud app via home wifi<sup>1</sup>.

Check and control your air conditioner's status from wherever you are, whenever you need.

You will never worry if you've left the AC on ever again.

airCloud Go app

## Voice control with Alexa and Google Home

Connect your **airHome** air conditioner<sup>2</sup> to your smart speaker for hands-free operation<sup>3</sup>.

Alexa, decrease temperature by 3°C

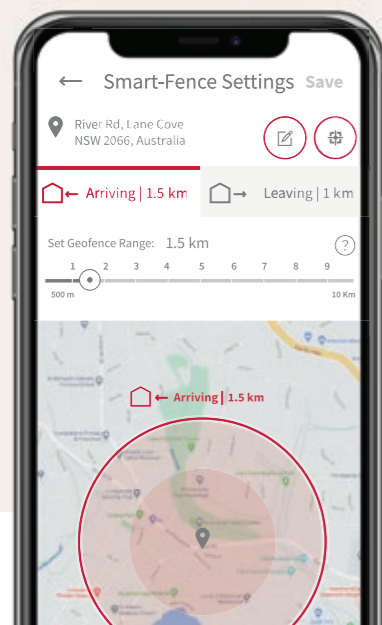

No need to think about it

Cleans & maintains itself

## airCloud Go: automated comfort as you come & go

Link your phone's location to your air conditioner with **airCloud** Go app's Smart-Fence function. Once you are within a preset distance from your home, your **airHome** air conditioner will automatically start to cool to your ideal temperature for when you arrive.

As you leave home, you can set your air conditioner to automatically turn off or switch to a more energy-efficient temperature.

More **airCloud** Go features for better indoor climate control from the convenience of your phone

Turn the air conditioner on/off and set the desired temperature, fan speed and airflow direction.

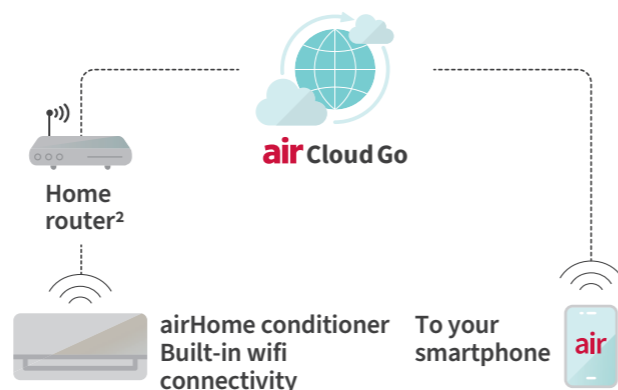

Program your air conditioning operation with the Simple Timer and/or Weekly Timer.

Pair your account with unlimited air conditioners.

Invite up to 20 users to manage each air conditioner.

## airCloud Go energy cost estimator

Track AC usage in your home and preview estimates of your daily, weekly, monthly and/or annual expenditure.

You can also set a budget limit and receive notifications as you near this threshold.

## A brand-new design remote controller

With a more intuitive controller than ever before, controlling your air conditioner has never been easier.

### New 'My Mode' button

The new 'My Mode' button enables you to save up to 3 combinations of your favorite settings (operation mode, set temperature, fan speed) so you can recreate your preferred climate in one touch.

### 0.5°C temperature control

Set the temperature by 0.5°C increments for more precise comfort.

airHome 500 remote controller

1 .... Access to a domestic wifi network is necessary to pair airHome to airCloud Go app.  
 2 .... Required router supporting 2.4GHz band.  
 3 .... Amazon Echo supports English, French, Italian, Spanish, German  
 Google Home supports English, French, Italian, Spanish, German, Portuguese-BR, Dutch, Danish, Swedish, Thailand, Chinese(Traditional), Indonesia.

Purifies your indoor air

Selection guide & specs

## Quality you would expect from a Japanese brand

### The right choice for a worry-free future.

**airHome** is engineered to provide long lasting performance, thanks to exclusive Hitachi self-cleaning technologies.

WARRANTY

### Peace of Mind with a 6 Year Warranty

The **airHome** wall mounted range comes with a comprehensive **6 year warranty** on parts and labour, so you can be assured of the reliability and quality of your **airHome** system.

# Helps to clean & maintain itself year after year

## FrostWash: Better at maintaining peak performance<sup>1</sup>

Over time, dust and dirt build up in your AC making it less powerful. Hitachi FrostWash technology continuously maintains the performance of your AC by removing dust and dirt with a unique technology.

FrostWash double benefits:

### Preserved performance

Our tests show that systems with FrostWash are **better at maintaining airflow performance** than those without this technology<sup>1,2</sup>

### Sanitising effects

<div style="border: 1px solid red; border-radius: 50%; width: 30px; height: 30px; display: flex; align-items: center; justify-content: center; margin: 0 auto;">99%</div> <p>Viruses eliminated<sup>2</sup></p>	<div style="border: 1px solid red; border-radius: 50%; width: 30px; height: 30px; display: flex; align-items: center; justify-content: center; margin: 0 auto;">99%</div> <p>Bacteria eliminated<sup>3</sup></p>	<div style="border: 1px solid red; border-radius: 50%; width: 30px; height: 30px; display: flex; align-items: center; justify-content: center; margin: 0 auto;">95%</div> <p>Mould reduction<sup>4</sup></p>
---	--	--

To learn more about air purification features

[Go to pg. 16 >](#)

1

Dirt deposits over time on the heat exchanger which leads to reduced airflow efficiency.

2

FrostWash: freeze the heat exchanger. The frost captures the dirt.

3

The mould and dirt detach from the heat exchanger as the frost melts.

4

The dirt and mould are washed away together with the condensate.

#### Bonus

Let FrostWash work when you're absent

- You can pre-set FrostWash to activate automatically when no one is in the room with motion sensor.
- airCloud Go app includes the control of FrostWash, so you can turn it on remotely with your phone.

## Mould guard function: Minimises mould formation & bad odours

Whenever your air conditioner is switched off, the mould guard function continues to run the fan to blow air through the internal components to dry them and prevent the primary cause of bad odours.

## Easy filter cleaning process

Like all air conditioners, airHome's pre-filter can get clogged from the accumulation of dust. A small reminder lights up on your air conditioner when it's time to clean the filter.

It's simple to wash thanks to the easy to remove panel and washable filter material.

1 .... Two identical units were tested for comparison; with and without FrostWash. Test chamber simulated approx. 2 years of dust and oil build up which may be experienced in a typical home environment. Airflow performance was tested before and after FrostWash being in the chamber. Unit without FrostWash experienced an 18% drop in airflow performance. Unit with FrostWash experienced only 6% performance drop. Tested at Johnson Controls-Hitachi Tochigi factory, Japan Nov/Dec 2021.  
 2 .... Claim refers to the effect of FrostWash technology which showed 99% reduction of virus particles on the heat exchanger tested at Kitasato Research Center of Environmental Science.  
 3 .... Claim refers to the effect of FrostWash technology which showed 99% reduction of bacteria on the heat exchanger tested at Kitasato Research Center of Environmental Science Japan.  
 4 .... Tested at Japan Textile Product Quality and Technology Center. Test method: ISO 18184 : 2019 "Textiles -- Determination of antiviral activity of textile products." using SARS-CoV-2 NIID isolated variant: JPN/TY/WK-521.

# Long-lasting performance for worry-free comfort

Hitachi Cooling & Heating air conditioners are built to last. Packed with safety & reliability features, airHome air conditioners are engineered to perform through the years.

## Complete SafeGuard system: 7 features to preserve your air conditioner equipment and extend its lifespan

### Electric Risk Prevention

- 1 Hitachi **dual-strong PCB** can withstand voltage surges up to AC420V.
- 2 The **Power-Safe** where the available power supply is limited, the Power-Safe setting lowers the maximum running current to allow your airHome air conditioner to safely run without tripping the circuit breaker.
- 3 In the event of a power failure, the **3-Minute Delay Circuit** prevents damage caused by multiple fast restarts.

### Physical Risk SafeGuard

- 4 **Anti-Corrosion Coated Fins** protects against long-term damage caused by water, air, salt, and humid environments.

- 5 The **valve cover** protects the outdoor unit from water damage caused by condensation or leaking, channeling water safely away from the unit.

- 6 **Anti-Rust Paint** helps to protect the outdoor unit from rust and the unsightly peeling of paint.

- 7 The electronic components are covered by a **Fireproof Electrical Enclosure** to drastically reduce the risk of fire spreading in the event of a fault.

# Automatic Fan Reverse on outdoor unit

To help remove any dust and small debris from the outdoor unit heat exchanger, the outdoor unit will briefly reverse spin the fan after you switch your AC unit off, helping maintain the performance of your system.

## Purifies your air

**Not only does airHome keep you comfy,** but it also improves your Indoor Air Quality.

Combining up to 3 different air purification technologies for enhanced effectiveness against pollutants including certain viruses, allergens, bacteria and even odours. **Take a deep breath with the peace of mind of cleaner and purer air.**

### Nano-titanium pre-filter

Hitachi's unique **Nano Titanium Pre-Filter** features a coating of Nano Titanium that resolves adhering microbes and odours. Due to its sleek surface, even dust containing grease can be easily wiped off without using water.

### FrostWash™

Heat exchanger cleaner automatically cleans the heat exchanger reducing the build up of remaining pollutants, mould, viruses and bacteria.

[Go to pg. 12 >](#)

### ViroSense Z1 filter

airHome embeds an extra filter to help purify your air. The **ViroSense Z1 filter** is coated with zinc pyrithion which actively combats airborne contaminants<sup>1</sup> neutralising most viruses and bacteria with up to 99.0% effectiveness on viruses<sup>2</sup>, up to 99.0% effectiveness on bacteria<sup>3</sup> from the air that passes through the filter.

1 .... ViroSense filter is expected to be effective during 12months. Tested at Japan Textile Product Quality and Technology Center. Test method: ISO 18184 : 2019 "Textiles -- Determination of antiviral activity of textile products." using SARS-CoV-2 NIID isolated variant: JPN/TY/WK-521.

2 .... ViroSense Z1 filter shows 99.9% of effectiveness against SARS-CoV-2 NIID isolated variant: JPN/TY/WK-521 and 99.0% effectiveness against Influenza A Virus (H3N2) tested at Japan Textile Product Quality and Technology Center using ISO18184:2019 method.

3 .... Tested at Nissenken Quality Evaluation Center. Test method : JIS L1902 : 2015 Bacterial Solution Absorption Method (Quantitative Test) using Staphylococcus aureus NBRC12732 and Escherichia coli NBRC3301.
